Portable Water Quality Meter
Field Form

Version 1.0 Updated 4/2/2024

Section A - Sample Event										
Site Arrival Date				Site Depart Date						
Site Arrival Time				Site Depart Time						
Site Name				Latitude						
Crew				Longitude						
Section B - Portable Meter Measurements										
Model	Instru- ment ID	Collection Time (HH:MM)	Observation Time* (HH:MM)	Parameter	Value	Unit	Notes	Rep- licate		
YSI ProQuatro		N/A		pH				1		
				Conductivity						
				DO						
				Temperature						
Hach 2100P**				Turbidity						
YSI ProQuatro		N/A		pH				2		
				Conductivity						
				DO						
				Temperature						
Hach 2100P**				Turbidity						
Section C - Site Photos										
Camera ID			Photo ID		Photo Notes					
Section E - General Notes										
General Notes										
					QC1					
					For Office Use		Data Entry			
							QC2			
Side A										

**Note: for turbidity, collection time refers to when the water sample is collected. Observation time refers to when data is recorded from the meter. Only turbidity measurements will have values for both times.*

***2024 Kenai Baseline field crews will not carry the Hach 2100P Instrument in the field*
